## Mobile Application

## Financing

The Gronlund Team started in the Real Estate Finance and Mortgage business in 1991 with the dream of providing the best counsel and financial services available. The Gronlund Team has successfully provided over 5000 mortgage loans to families all over California in almost all circumstances.

State of the art mobile application to assist with calculators, rates, mortgage news, and instant contact options to your mortgage planner.

1. Search Steve Gronlund in either the Apple Store or Google Play.
2. Download the free application.
3. Start calculating your own mortgage payments with or without tax and insurance.
4. Start watching the mortgage news including current forecasts for rate change.

## Certified Mortgage Planner

Certified Mortgage Planners are not loan agents. Mortgage Planners work very hard to design a mortgage plan that will properly work with your financial and retirement plans. A home loan is a financial tool, and should be used as such. You should have a family doctor, attorney, financial planner, insurance agent, and a mortgage planner you trust. Why roll the dice every time you need one?
